Investing in Ukraine's Future

New students in the Scholarship Program

Orphaned and abandoned children are allowed to live in Ukrainian orphanages from birth until they reach the age of 18. These children often go to school right at their orphanages, receiving a sub-standard education and experiencing little or nothing of the outside world. At age 18 the children “age out.” In other words, they must leave the orphanage regardless if they have the ability to live independently in the outside world. In many cases, this means a child must leave the only world he or she has ever known, without a home, a family, money or an adequate education.

Although the Ukrainian government will pay for the tuition cost of additional schooling, the government does not pay for basic living and educational expenses. These promising young adults lack the financial support needed to get into or stay in school. For many gifted and talented orphans, this means their dreams of a college education, meaningful work and the ability to support themselves remain only that -

- dreams. For a fortunate few, Ukrainian Children's Aid and Relief Effort, Inc. (“UCARE”) provides an opportunity to go to college and succeed in life.

The mission of the UCARE is to assist children living in Ukrainian orphanages. Through its scholarship program, UCARE supports some of these young people leaving the orphanages who go on to college or trade school, by paying for many of their daily living and school expenses. For example, UCARE pays for books, tutoring, school supplies, medical assistance, clothing, shoes, as well as room and board.

How do they qualify?

Because UCARE scholarships are limited they can only be provided to the academically gifted and talented. Before choosing these orphan candidates for its scholarship program, UCARE requires that they pass a rigorous academic examination. All applicants also undergo a psychological screening, in an attempt to ensure that the scholarship recipients are psychologically equipped to deal with college and life outside of the orphanage.

If an orphan candidate does not do well on UCARE's scholastic aptitude test to immediately qualify for a scholarship, UCARE may place that child in UCARE's Vstupnik program. The Vstupnik program is

a remedial program giving the potential candidates an additional year of tutoring to prepare for college. After one year in the Vstupnik program the UCARE scholastic aptitude test is re-taken. If the child does well on this second examination, he or she is then placed on the UCARE scholarship waiting list.

Student Responsibilities

Each UCARE scholarship recipient must also gain admission to a college or trade school. After gaining admission, UCARE's scholarship recipients must stay in regular contact with UCARE and “give back” to UCARE's mission to help other Ukrainian orphans, by giving their time. In order to continue to receive a UCARE scholarship, each scholarship recipient must maintain passing marks, meet several times a year at UCARE's office in Kyiv and communicate with their sponsors.

Becoming a donor/sponsor is a great way to support and reach out to these children. For more information, or to sponsor a Ukrainian orphan, go to UCARE's website: www.ucareinc.org

Or send an e-mail to: ucarescholarship@aol.com
